

Corporate Responsibility

“Never doubt that a small group of thoughtful, committed citizens can change the world; it’s the only thing that ever has.” – Margaret Mead

The EnviroScience **Corporate Responsibility Committee (CRC)** is an employee-led initiative for giving back to our community with our time, labor, expertise, and of course, financially by helping to fund projects and activities of particular interest to our members and employees. We are proud members of the [United Nations Global Compact](#) and continue to grow our business following the [Ten Principles](#).

[2019 “Communication on Progress”](#)

The CRC is a voluntary group of staff who participate in and support our various causes and events. The EnviroScience Board of Directors recognizes the importance of community involvement and provides 98% of the seed money we use. Because of this support, nearly 40% of our staff participate in CRC events.

EnviroScience’s Corporate Responsibility Committee was awarded the 2014 [Medical Mutual SHARE Award](#) for Community Service. EnviroScience was one of thirteen companies in Northeast Ohio recognized for its outstanding initiatives to give back to its community.

Since the group’s inception in early 2012, we have given thousands of hours and dollars to the following causes and

charities:

Conservation and Animal Welfare

- Threatened & Endangered Species: Purple Catspaw Recovery
- Get the Lead Out
- Paws & Prayers Pet Rescue
