3:30 – 3:45	Hike Back to Vehicles and [Base Training Area]
~4:00	Adjourn!

## What You Will Need

- Clipboard and writing implement (Day 1 PM and Day 2)
- Day 2: Lunch
- PHWH Manual (I will have a couple available, but if you want your own to use in the field please bring it)

## Other Stuff

### PLEASE!

- Read over the Ohio EPA Primary headwater Habitat Manual before class. This will help greatly! It can be downloaded via the following link: <http://www.epa.state.oh.us/dsw/wqs/headwaters/index.aspx>. The site also has a lot of other information that may be helpful.
- Come with questions, case studies, etc. to share.
- Let Paul know if your schedule changes. We can likely work it out where you can complete the training.

### Other Stuff

- Dress for the weather on both days. We will be wading in small streams; I wear hip boots, but others find that knee boots are OK (but I can't promise that you won't go dippers!)
- I will provide all the gear needed to conduct the assessments except for personal gear. I will also provide packets of forms, etc., to everyone.
- See the map for locations of training sites.
